"Activsterol is a natural product that contains CNI (choline-nicotinate). CNI, which can be found in foods like soy, turkey, eggs & beef liver, has been proven to help prevent heart disease. Activsterol helps manage blood pressure, cholesterol and triglycerides. Chronic inflammation (meaning inflammation that continues for months or years) is linked to almost every chronic illness. CNI helps reduce the risk of many chronic diseases including heart disease, asthma, type 2 diabetes & inflammatory bowel disease (IBS). " "Activsterol works by helping to balance out the hormones that control inflammation. This helps the body stay healthy and lower the risk of chronic disease."
